

Evaluating Patient Follow-up and Complexity in Cancer Clinical Trials- EFACCT

**DELPHI STUDY CONSENT FORM**

IRAS ID: 218440

**Participant Identification Number:**

**Title of Project:** Evaluating patient follow-up and complexity in cancer clinical trials: Development of an objective methodology to define and quantify trial complexity, intensity and workload to improve operational management and enhance models of trial delivery.

**Name of Researcher:** Helene Markham Jones

Please initial box

1. I confirm that I have read the information sheet dated 24/08/2017 Version 3.0 for the above study. I have had the opportunity to consider the information, ask questions and have had these answered satisfactorily.
2. I understand that my participation is voluntary and that I am free to withdraw at any time without giving any reason and without there being any negative consequences or my legal rights being affected. I understand that should I decide to withdraw then information already collected will be included in the data analysis in the study.
3. I understand that relevant sections of my data collected in the study may be looked at by authorised individuals from the University of Lincoln, the research team and regulatory authorities as part of the research audit process. I give permission for these individuals to have access to these records.
4. I understand that my name will not be identified during the Delphi survey or in the reports resulting from the research and my personal details will be kept strictly confidential.
5. I agree that non identifiable quotations and data may be used in this study and may be published in the research thesis, articles, on the study website and presented at conferences.
6. I agree to take part in the above study.
